

New Source Review newspaper advertisements for construction permit applications, June 12, 2008. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: June 10, June 11, or June 12, 2008. Public notices are generally published every two weeks. The previous publication of public notices was May 29, 2008.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Universal Well Services, Inc. with a mailing address of 190 Longfield Road, Lake City, TN 37769. They seek to obtain air contaminant permits for sources located at the same address, as follows:

- 1) Sand Loading Operation (Division identification number: 01-0239-01/61818): This existing operation consists of three sand storage silos and associated equipment used for transferring material for storage. Two dust filtration system/settling chambers are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. Hymelia Craig is the assigned Division person
- 2) Concrete Batch Plant Operation (Division identification number: 01-0239-02/61819): This existing operation consists of a cement silo, a fly ash silo, and associated equipment used to produce concrete mix. A baghouse is used for pollution control. There would not be physical construction. Regulated air contaminants are emitted by this source. Ms. Hymelia Craig is the assigned Division person

For the Anderson County *Oak Ridger* -- published once on or before Thursday, June 12, 2008.

---

The applicant is APAC Atlantic, Inc. (Harrison Division) with a mailing address of 1301 Spring Hill Road, Knoxville, TN 37914. They seek to obtain an air contaminant permit (Division identification number 18-0131-02/61951) for purchase of an existing Sand Quarry operation located at 1902 Cox Valley Road, Crab Orchard, TN 37723. This operation consists of crushers, screens, conveyors and associated equipment to produce sized sand products. Wet suppression is used for pollution control. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Cumberland County *Crossville Chronicle* -- published once on or before June 12, 2008.

---

The applicant is Dyersburg Elevator Company with a mailing address of P.O. Box 850, Dyersburg, TN 38025. They seek to obtain an air contaminant permit (Division identification number: 23-0051-01/62041) for modification of a Grain Elevator located at 300 Pressler Road, Dyersburg, TN 38024. This existing operation consists of storage silos, grain dryer, grain receiving/loading facilities, and associated equipment used to store and distribute grain. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

For the Dyer County *State Gazette* -- published once on or before Thursday, June 12, 2008.

---

The applicant is H.C. Spinks Clay Company with a mailing address of 612 Tenth Avenue North Nashville, Tennessee 37203. They seek to obtain an air contaminant permit (Division identification number: 40-0010-00/61902) for modification of the Clay processing operation located at 275 Carothers Loop Paris, Tennessee. The requested modification is to add a silo and loadout with baghouse controls and add a baghouse to control the existing rail load out. There would be an increase in operating hours of the mill, bagging, silos and loadout. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Swinea is the assigned Division person.

For the Henry County *The Paris Post-Intelligencer* -- published once on or before Thursday, June 12, 2008.

---

The applicant is Tate and Lyle Ingredients Americas, Inc. with a mailing address of 2200 East Eldorado Street, Decatur, IL 62525. They seek to obtain an air contaminant permit (Division identification number: 53-0081-72, 73, & 74/62029) for the modification of their propanediol production operation at 198 Blair Bend Drive, Loudon, Tennessee. The existing operation consists of seed/production fermentation vessels, separations, refining, distillation and biomass drying along with wet scrubbers for control of volatile organic compounds, ammonia, and particulate matter. This proposed modification would increase the allowable emissions of acetaldehyde. There will be no increase in overall allowable emissions of volatile organic compounds. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

For the Loudon County *News-Herald* -- published once on or before Thursday, June 12, 2008.

---

The applicant is Clark Lumber Company, Inc. with a mailing address of 552 Public Well Road, Red Boiling Springs, TN 37150. They seek to obtain air contaminant permits for the following sources located at the same address, as follows:

- 1) Wood Chipping & Screening operation (Division identification number 56-0055-02/61909): This existing operation consists of a Morbark 58" Chippack and double-deck screen. A cyclone separator will be used for pollution control. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.
- 2) Re-saw operation (Division identification number 56-0055-03/61914): This existing operation consists of a re-saw with a cyclone to collect green sawdust conveyed to a trailer. A cyclone separator will be used for pollution control. There would be no physical construction. Regulated air contaminants will be emitted by this source. Mr. W. Medley is the assigned Division person.
- 3) Recovery Saw operation (Division identification number 56-0055-04/61915): This existing operation consists of a recovery saw and collection system. A cyclone separator will be used for pollution control. There

would be no physical construction. Regulated air contaminants will be emitted by this source. Mr. W. Medley is the assigned Division person.

4) Planer operation (Division identification number 56-0055-05/61916): This existing operation consists of a planer and collection system. A cyclone separator will be used for pollution control. There would be no physical construction. Regulated air contaminants will be emitted by this source. Mr. W. Medley is the assigned Division person.

For the *Macon County Times* -- published once on or before Thursday, June 12, 2008.

---

The applicant is Isotek Systems, LLC with a mailing address of 700 S. Illinois Avenue, Suite 102, Oak Ridge, TN 37830. They seek to obtain an air contaminant permit (Division identification number: 73-0182-01/61506) for construction of a Uranium Disposal Operation at Oak Ridge National Laboratory, Building 3019, Bethel Valley Road, Oak Ridge, TN 37830. This proposed operation would consist of equipment used to prepare, downblend and package DOE uranium for long term storage and disposal. Because of the amount and type of emissions, the use of control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the *Roane County News* -- published once on or before Thursday, June 12, 2008.

---

The applicant is Maryville College with a mailing address of East Goddard Street, Maryville, Tennessee 37804. They seek to obtain an air contaminant permit (Division identification number: 05-0117-01/61860) for an existing Wood-Fired Boiler located at 502 E. Lamar Alexander Pkwy, Maryville, Tennessee 37804. This existing operation consists of a natural gas fired boiler. The requested modification is to add a natural gas fired back-up boiler. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. There are regulated air contaminants emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For Blount County *Maryville Daily Times* -- published once on or before Thursday, June 12, 2008.
